

YaraBela™ SULFAN™ 24N - 6S

Your Improved SA Formula

Main advantages to use SULFAN™ as against Sulphate of Ammonia:

1) SULFAN™ : THE BEST NITROGEN NUTRITION => PERFECTION

- Balanced combination of nitrate-N (12 NO₃) and ammonium-N (12NH₄)

2) SULFAN™ : BOOST YOUR YIELDS => OPTIMIZATION

- Nitrate-N is immediately available to the plant compared to ammonium-N contained in SA.
- Nitrate-N supports other nutrients uptake such as K, Mg, Ca.

3) SULFAN™ : IMPROVE YOUR SOIL CONDITIONS => SUSTAINABILITY

- Reducing soil acidification compared to Urea or SA

4) SULFAN™ : INCREASE YOUR PROFIT => ECONOMIC BENEFIT

- Less nitrogen losses compared to SA
- Less caking and no dust compared to SA

5) SULFAN™ : CONTROL YOUR APPLICATION => UNIFORM GRANULE SIZE

- Granules are easier to apply and broadcasting is more accurate

Wide range of crops to be applied on: maize, rice, sorghum, tomato and other vegetables, mango, pineapple, oil palm...
